

Experience (9+ y)

Senior Security Engineer

Salesforce, Bengaluru

Feb 2024 – Present

2y 6m+

- Spearheaded the **DataWeave SAST program**, authored **29+ custom rules** integrated into *Salesforce Code Analyzer* & VS Code extension to remediate **200+ findings** while authoring **Secure Coding Guidelines** for Partner ISVs.
- Architected production-ready **AI skills, plugins and tooling**, including the On-Call AI plugin, an AI-proficiency skill, 3PP Tracking skill and automated security triage plugin built on Slack, Python, **Claude** and **OpenCode**.
- Standardized enterprise API inventory governance across 2000+ endpoints using **Bruno** while standing up a risk-tiered **BurpSuite DAST** framework.
- Automated continuous **3PP scanning** across **2000+ assets**; provided mitigation guidance to secure ecosystem.
- Served as regional IST security anchor, managing **2,100+ identity/access escalations** within SLA and automating multiple workflows to **cut execution time by 70%**.

Senior Security Engineer

Grab, Bengaluru

Dec 2021 – Nov 2023

1y 11m

- Led **threat modelling, architecture reviews**, and AppSec testing across critical financial and transport platforms.
- Managed **Bug Bounty Program** on-calls, ticket handling, & process improvements, saving 1000+ man hours.
- Engineered automated security testing tools & CI/CD security quality gates, reducing vulnerability triage time.
- Enhanced security for financial lending, transport, and other finance & data related verticals.
- Created and enhanced **training courses** on secure coding for both development and security teams.
- Proficient in working with microservices, CI/CD, SSDLC, IAM, **SSO, OAuth, RBAC**, risk-based authentication.

Security Consultant

SecurEyes, Navi Mumbai

June 2019 – Dec 2021

2y 6m

- Conducted design reviews, pentests, **source code analysis**, threat modelling for 100+ web/Android/iOS apps & APIs.
- Improved collaboration across business & engineering stakeholders through effective communication skills.
- Led a dynamic security team overseeing departments such as Internet Banking, **UPI**, & **Supply-Chain Finance**.
- Demonstrated professional expertise in security & compliance frameworks such as NIST, **OWASP**, CWE, MITRE ATT&CK.
- Performed **configuration reviews**, vulnerability assessments, & infra security reviews for banks.
- Played a vital role in achieving the **Cert-IN** empanelment 2020. Organized the first-ever company-wide **CTF** event.
- Proficient in managing third-party risks, mitigation strategies, & remediation efforts across cloud & on premises.

Security Analyst – Web Dev.

DreamCare Developers, Pune

July 2016 – Feb 2019

2y 8m

- Developed & led security assessments for public/private projects working closely with NIC & Third-Party Audit Firms.
- Facilitated the implementation of robust **SDLC** practices, & efficient **automation** to enhance project outcomes.

Skillset / Tools

Certifications	CEH v10, CRTP, SANS GIAC GICSP, CISM, CISSP (in prep.)
Security	Product Security Architecture, Threat Modelling, Shift-Left SAST/DAST, API Security, Cloud Security (AWS), PKI, CVSS, CWE, IAM, Bug Bounty, 3PP, Supply Chain Security
Tooling	Burp Suite, SemGrep, Checkmarx, Bruno, Postman, Docker, Kubernetes, Jenkins, Git, Cryptography, OWASP Top 10, Sonatype, Trivy, Prisma, Wiz, Claude, OpenCode
Web Dev.	HTML5, CSS3, JS, jQuery, Bootstrap, Django, Laravel, REST, JWT, SSO, OAuth 2.0/OIDC/SAML
Infra & OS	Linux, Windows, Kali, RHEL, Cent OS, Ubuntu, Parrot OS, CI/CD, Containers, Vault
Coding	Python, Bash, PowerShell, JavaScript, NodeJS, Java, Go Lang
